Nature Storybook Art — Session Two

Nature Storybook Art allows children to become more aware of book illustration by experiencing hands-on techniques as part of easy art projects. Nature Storybook Art invites children to explore art activities with materials readily available in most homes and schools. The wide variety of activities require no prior expertise, and are equally appropriate for ages 5 to 10 years. Each activity builds new awareness about books, illustrators, and their art techniques. Each illustrator is paired with a book, and presented to the child artist for an art activity of creative value. Children will see a relationship of book illustrations to their own art explorations. Art techniques include: drawing, painting, collage, crafting/constructing.
