“This is County Executive Barry Glassman with an update on the COVID vaccine.

The Harford County Health Department is coordinating vaccine distribution as supplies come in from the state. Your opportunity to get the vaccine will depend on deliveries and the priority group you are in. I am working to get more vaccines from the state.

If you are 65 or older, you are in the group that can now fill out a form to be notified when vaccination appointments are available.

Younger residents will register at a later date.
