ORIGAMI Rudolph Book Mark

Giving a book for the holidays?!
Here is a cute bookmark as a bonus to your special gift.
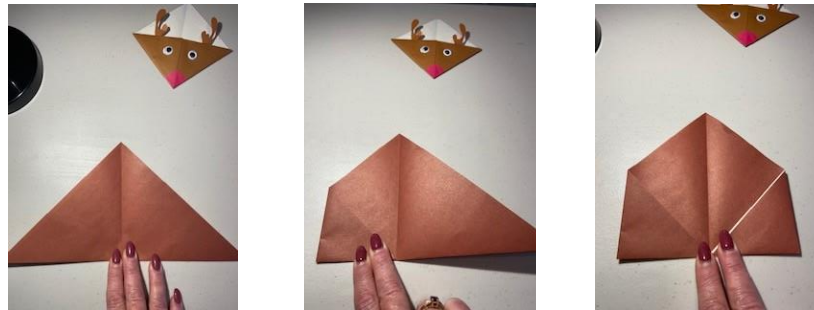

STEP 1:

Start with your 6" or larger diamond laying on the table, color side down. Fold your diamond in half, top to bottom to create a triangle. Fold left to right to create a smaller triangle.
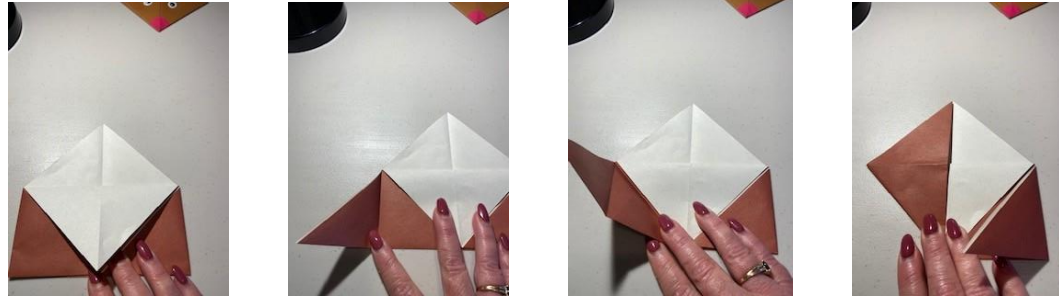

STEP 2:

Open the last fold so you are back to the large triangle with the long edge on the bottom. Fold the left corner to the center fold line so the bottom edges are even. Repeat on the right side.
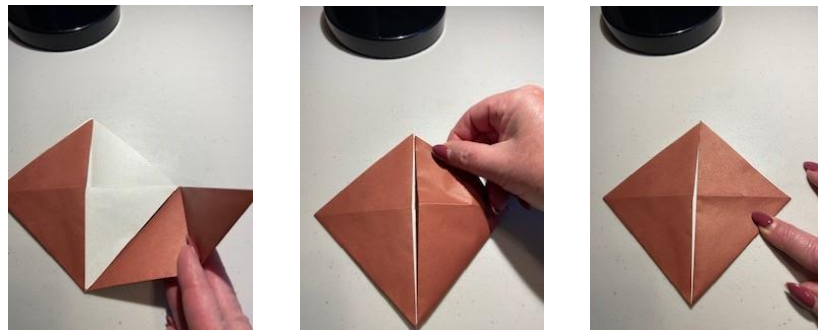

STEP 3:

Fold the front layer of the top point down to where the other points meet. Flatten the top of this fold. Open the left side, fold up so the point of the open flap meets the top point of your diamond and flatten along the bottom left side of the diamond.

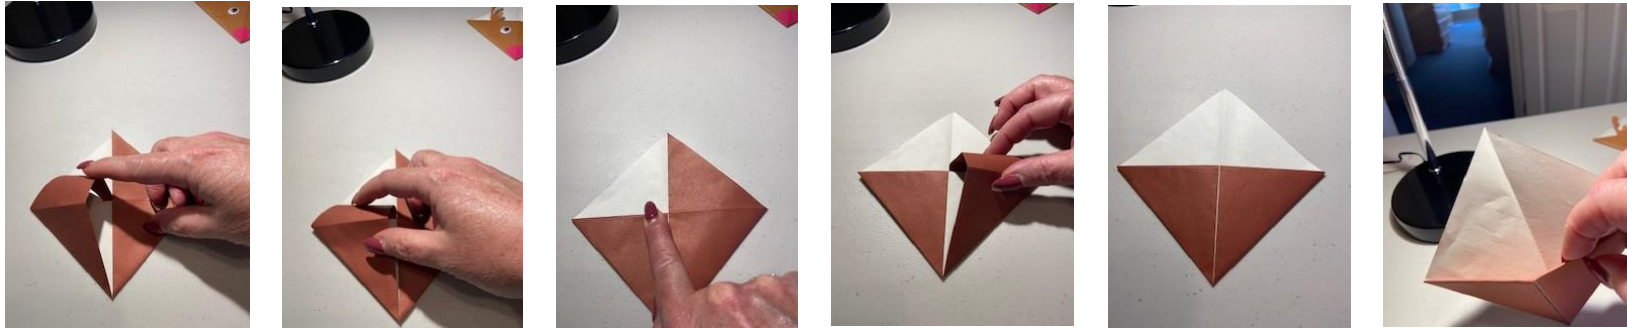

STEP 4:

Open the bottom right flap, fold up so the point of the right flap meets the top point of your diamond and flatten along the bottom right side of the diamond.

STEP 5:

Take the top left point and tuck it into the pocket behind this flap. Slide all the way into the pocket and flatten your fold. Repeat on the other side.

STEP 6:

Your book mark is complete! Since it is Christmas, I added a red nose, eyes, and antlers to make a reindeer. Use any color paper and decorate with whatever supplies you have on hand!
