

MARYLAND'S READY BY 21[®]

Action Plan

Adopted by the
Maryland Children's Cabinet

September 2009

Dear Friends,

What does it mean to be ready by 21?

In Maryland, it means that all children are equipped with skills and a knowledge base that will help them live independently.

Every child in Maryland should have what he or she needs to become a successful adult by the age of 21. They should be safely and stably housed and engaged in education or competitive employment with health benefits. It is our goal, as One Maryland, that every child is prepared to live an independent and productive life.

The Maryland Children’s Cabinet has worked diligently to address all of these issues. We thank each of the agencies involved in the development of this action plan for their commitment to ensuring that “Ready by 21” is not just a slogan, but a reality for children in Maryland as they enter adulthood.

Sincerely,

Martin O’Malley

Anthony Brown

Ready By 21 Overview

The Ready By 21 Team, chaired by Department of Human Resources (DHR) Secretary Brenda Donald, was established in January 2008 to oversee the implementation of the Maryland Children Cabinet's Ready By 21 Action Plan.

The following are the goals outlined in the Ready by 21 Five Year Action Agenda:

1. All Marylanders will understand the urgency of providing supportive services and resources, are aware of existing gaps, and are supportive of investments that will improve the odds for youth to be Ready by 21.
2. All Maryland's youth, especially older youth (14+), will have the support of capable, competent and caring adults.
3. All Maryland's transition-age youth, with an emphasis on youth transitioning out of public systems, will have access to safe and affordable housing that is convenient to services, supports, transportation, schools, employment and other youth.
4. All Maryland's youth, especially transition-age youth, will receive necessary supports to ensure health and well being.
5. All Maryland's youth, with an emphasis on vulnerable youth, will be prepared to successfully transition into post secondary education, advanced training and the workforce.
6. Maryland's social service and juvenile service systems will treat all young people equally and fairly.
7. Maryland will have an infrastructure that promotes sufficient funds and is held accountable for the preparedness of transition-age youth for college, work and life.

The Ready by 21 Leadership Team convened four subcommittees whose membership included local providers, stakeholders and state child serving agency staff to develop benchmarks in the areas of Education, Employment, Health, and Housing. Cross-cutting issues, which cross multiple age groups and subject areas, and corresponding benchmarks were also identified. This document is the compilation of all five areas, with corresponding strategic action steps. The Action Plan is intended to benefit all youth; unless otherwise specified, benchmarks and action steps apply to all youth. Benchmarks are listed according to the age level or range when services should commence and continue through adulthood, as appropriate.
