Date

Harford County Code § 105-28. Term of license/registration; renewals.

All licenses and registrations issued pursuant to this Article shall expire on April 30 of each odd-numbered year. Any individual who possesses a license expiring in 2006 shall be issued a one-year license if the individual meets all other requirements of this article for renewal. The fee for the one-year license shall be based upon Chapter 157 of this code. Applicants for licenses and renewals shall pay to the county a fee for a master, limited, restricted or journeyman electrician's license or an apprentice electrician's or electrician's assistant's registration as provided for by the county fee schedule. Effective for any renewal beginning May 1, 2007 or thereafter, applicants for renewals of a master, limited, restricted or journeyman electrician's license shall provide to the county certification of completion of a minimum of 10 contact/clock hours of electrical continuing education within the preceding licensing period. However, the continuing education requirement shall not be applicable for the renewal of a license originally obtained during the same calendar year of the renewal. After May 1 of the year in which the license or registration expires, a person, firm or corporation shall not engage or hold themselves out as a master, limited, restricted, journeyman or apprentice electrician, or an electrician's assistant unless the license or registration has been renewed or restored. If application for the restoration is made within 90 days after April 30, a license which expires because of failure to renew prior to May 1 shall be restored only on the payment of the renewal fee and the restoration fee. If the application for restoration is not made within the 90-day period after expiration, a renewal may not be issued and the Board may require compliance by examination before re-issuance as if the applicant had never been licensed.
