DEPARTMENT: PUBLIC WORKS**DIVISION: Director's Office****INDEX: 303110****ORIGIN/PURPOSE:**

The Director of Public Works provides guidance and administrative support to all divisions within the Department of Public Works. The Director works to provide a more efficient, cost-effective Department of Public Works which will define and meet the needs of our citizens while maintaining a work environment based on common sense, accountability, and compassion.

The Department of Public Works is divided into three major divisions: Water and Sewer, Engineering and Construction, and Environmental Affairs. In FY 02, under the purview of the Director of Public Works, a new index was created called Capital Projects Management. This division was established to manage the design and construction of County buildings and other construction projects for agencies outside the Department of Public Works. In FY 04, the Water Resources Planning and Engineering division was also placed under the purview of the Office of the Director. In FY 07, Capital Projects Management was renamed Vertical Construction and moved under the purview of Public Works - Construction Management and Water Resources Planning & Engineering was moved under the purview of Public Works - Engineering & Construction. This assures support and participation from each division of the Department in water quality planning and improvements. The Director of Public Works is a position mandated by the Harford County Charter that must be held by an individual who possesses a Professional Engineer's license under the laws of the State of Maryland.

*These are new measures being tracked by the Department of Public Works, therefore data for previous years is unavailable.

Explanation and Analysis of Performance Measures

The outcome is a cumulative percentage. Under the County's municipal National Pollutant Discharge Elimination System (NPDES) permit, the County is required to treat 10% of this total every 5 years (i.e. FY 2004 should be 10%, FY 2009 should be 20%, etc.). The acres untreated accounts for acres developed prior to stormwater management regulations or areas that were developed with waivers or exemptions after stormwater management regulations were adopted. All new impervious area will be required to provide management under new stormwater management regulations. Costs include design, construction and administrative cost for projects constructed. The amount of treated applied to non-structural practices such as street sweeping or public outreach needs to be determined. This will increase the percentages treated. FY 03 project was completed by Water & Sewer, thus costs are not included. Questionnaires will be distributed beginning in 2007.

*These are new measures being tracked by the Department of Public Works, therefore data for previous years is unavailable.

Explanation and Analysis of Performance Measures

The County is taking a proactive approach to the road infrastructure versus a reactive approach by striving to reduce each year the percentage of roads needing to be overlaid. This will allow citizens to travel on well maintained roads, reducing damage to vehicles and producing an aesthetically pleasing environment. The increased annual budget outlays will not have a noticeable impact on the average rating for several years.

DPW - ENGINEERING & CONSTRUCTION - ENGINEERING OBJECTIVES & PERFORMANCE MEASURES

Department Goal:

To provide safe and well maintained bridges

Department Objective:

To increase the average rating of County bridges while decreasing the number of bridges rated ≤ 60 in the County's bi-annual bridge inspection report

Explanation and Analysis of Performance Measures

Some identified repairs are fairly minor in nature and not considered an immediate safety or capacity issue. These smaller repairs, although counted as a deficiency, may be deferred for several years.

To conduct long-term monitoring of environmental conditions at landfills to ensure regulatory compliance and environmental protection.

To operate and maintain, efficiently and in compliance with State permits, the Scarboro Remediation and Tollgate Landfill groundwater treatment systems and the landfill gas control systems at the Tollgate and Bush Valley Landfill

Explanation and Analysis of Performance Measures

Monthly samples of the effluent from the groundwater treatment systems are required to demonstrate that treated groundwater will not harm the environment. Permit required discharge standards are similar to drinking water standards. Systems are subject to several State permits. Regular reporting requirements and routine MDE inspections measure compliance of system operation. Systems operate 24 hours per day, 7 days per week. Continued operation is necessary to provide optimal protection of human health and the environment. Sampling and analysis of the groundwater is required to ensure regulatory compliance and environmental protection.

Explanation and Analysis of Performance Measures

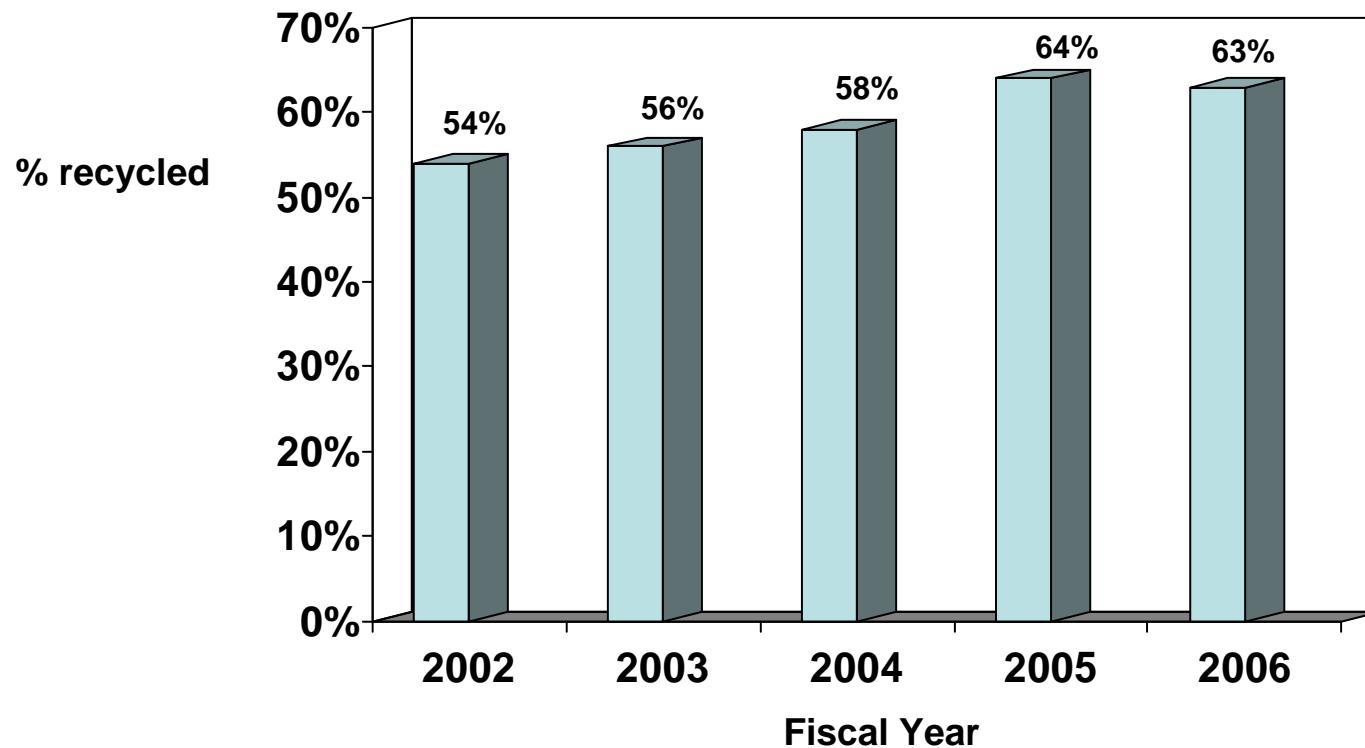

The solid waste stream is projected to increase and, therefore, the recycling tonnages are expected to increase as well. Additional tonnage removed due to ash recycling at the Waste-to-Energy Plant and increased production of yard trim material. The percent of population reached is decreased due to substantial budget reductions in advertising. Also, the gallons of antifreeze are below projections and the tons of white goods and oil recycled are below projections due to the reduction in the number of collection sites.

This operating budget accounts for post closure care and monitoring costs associated with closed landfills. The accounting for these costs is required by the Governmental Accounting Standards Board Statement No.18.

The costs include groundwater monitoring, gas monitoring, operation and maintenance of groundwater treatment systems, sampling and monitoring activities, and various other costs associated with post closure activities. The Maryland Department of the Environment monitors the treatment and remediation operations for closed landfills.

DPW - ENVIRONMENTAL AFFAIRS - SOLID WASTE MANAGEMENT OBJECTIVES & PERFORMANCE MEASURES

Department Goal:

To provide adequate solid waste disposal capacity for the next ten years and beyond using educational programs and the most appropriate technologies

Department Objective:

To expand the Harford Waste Disposal Center (HWDC) Landfill and plan to expand the Harford Waste-to-Energy Facility (HWTEF) while conserving landfill space by removing selected segments of the waste stream at the HWDC and through the Litter Control (LC) and Adopt-A-Road (AAR) programs for recycling

- V. Environmental Stewardship
- VII. Quality of Life

<u>Outcome:</u>

*population is averaged on a calendar year basis

Explanation and Analysis of Performance Measures

The Solid waste stream is projected to increase as the county population increases. Accordingly, additional materials need to be removed from the waste stream for recycling in order to maximize the life of the landfill. The pounds of material removed per county resident and the number of PVs serviced per day continue to increase. Although the percentage of the landfill waste stream recycled appears to be declining, the tonnage is projected to increase.

This budget is based on the Northeast Maryland Waste Disposal Authority issuing their bonds and purchasing the Waste to Energy Plant on our behalf. The operating budget consists of payments to the contract operator for operations and maintenance expense, repair and replacement expense, insurance expenses, management fees, ash transportation, air quality testing, and air pollution control monitoring, etc. Funds are also budgeted for Northeast Maryland Waste Disposal Authority (NMWDA) fees and a site lease to Aberdeen Proving Ground.

The Treasury Department will act as an agent for NMWDA and collect all monies including steam revenue from the Army. The department will pay all invoices to the contract operator, NMWDA and the Army.

DEPARTMENT: PUBLIC WORKS - WATER AND SEWER**DIVISION: Water Production****INDEX: 305220, 305240, 305250, 305280, 305290****ORIGIN/PURPOSE:**

The Water Production Section provides safe and potable water to over 42,000 customers on the County's water system. The section utilizes three County-owned treatment plants, 11 booster stations and 13 water towers to process and deliver water. Sales to Bel Air and Aberdeen represent 2.5 mgd of water production. The County also purchases water from the City of Havre de Grace. This section is able to monitor and direct water throughout the system's four pressure zones via radio telemetry.

FY '07 - '08 GOAL & OBJECTIVE:

I PROTECT PUBLIC HEALTH AND THE ECOSYSTEM THROUGH RESPONSIBLE SYSTEM MANAGEMENT, MAINTENANCE AND OPERATION

- o To minimize the number of Sanitary Sewer Overflows (SSO) in any given year to below the industry national average of 7.3 per 100 miles

JUDICIAL

ORIGIN/PURPOSE:

The Circuit Courts were first established in Maryland by the Constitution of 1851 and were continued by subsequent Constitutions which were passed in 1864 and 1867. Since 1867, Harford County and Baltimore County have comprised the Third Judicial Circuit. The Circuit Court for Harford County is a Court of general jurisdiction. It handles a wide variety of civil disputes including tort and contract disputes for parties requiring a jury trial. It also hears family law related cases including divorce, child custody and child support cases. On the criminal side, it hears felony cases and prayers for jury trial from the District Court.

The State of Maryland pays for the judges salaries and the expense of a full-time master as well as providing for five law clerks. It also funds the Office of the Clerk of the Circuit Court which provides the staff for the Court system. Harford County funds the costs of the judges' staff as well as the operation of the Jury Commissioner's Office, the Office of Family Court Services and the Community Work Service Program.

The Circuit Court strives to contain expenditure requirements and still provide expeditious, quality service to the residents of Harford County

DIVISION: Jury Services

INDEX: 412000

ORIGIN/PURPOSE:

The Maryland Constitution as well as Maryland statutory and case law provide that parties to civil cases and defendants in criminal cases are entitled to a speedy trial by an impartial jury.

The preservation of this constitutional right to jury trial is the responsibility of the Circuit Court for Harford County. The Court must ensure proper jury selection procedures and has established a jury selection plan which is approved by the Court of Appeals of Maryland. Individuals who serve on juries are given a token compensation for their services.

This budgetary account provides funding for costs associated with jury service, including fees and miscellaneous expenses.

DIVISION: Grand Jury

INDEX: 413000

ORIGIN/PURPOSE:

Under Maryland law, the Grand Jury performs an important function in the administration of the criminal law. It is not a judicial body, but is an accusing body. It has been preserved as an institution necessary for the preservation of the peace, good order, and dignity of the state in bringing to trial those guilty of violations of law, and protecting people from being put on trial for frivolous, unfounded, or false accusations.

The Grand Jury's function is to investigate violations of the criminal law and this function is ordinarily accomplished by indictments or presentments. Various statutory duties are also imposed on the Grand Jury. At least once each calendar year, the Grand Jury must visit the local jail and inquire into its condition, the manner in which it is kept, and the treatment of the prisoners, and report their findings to the Court. The Grand Jury in Harford County is selected from the list of local voters. Its function is to decide whether a person suspected of committing a crime should be indicted. Evidence is presented to the Grand Jury by the State's Attorney, law enforcement officers, and witnesses. A determination is made and the indictments and / or no-bills are presented to the Circuit Court for Harford County.

The Grand Jury operating budget appropriates funding for costs associated with Grand Jury services, including fees and miscellaneous expenses.

DIVISION: Community Work Service

INDEX: 416000

ORIGIN/PURPOSE:

The Community Work Service Program (CWS), instituted on July 1, 1985, is a form of alternative sentencing imposed upon offenders by the Courts of Harford County or the Juvenile Services Administration. At the discretion of the presiding Judge, nonviolent offenders are assigned to community work service in lieu of more traditional sanctions. By performing work service, the community and the offender benefit directly. These offenders are able to "pay back" the community for the crime committed against the County; and participating private, nonprofit institutions and / or agencies, benefit from the work service performed on their behalf.

Beneficiaries of this program include Harford County Government (landfills, construction, and facilities maintenance), hospitals, churches, various volunteer fire departments, and schools.

FY '07 - '08 GOAL & OBJECTIVE:

5 TO PROVIDE AN OPPORTUNITY FOR NON-VIOLENT OFFENDERS TO PAY BACK TO THE COMMUNITY THROUGH THE PERFORMANCE OF COMMUNITY WORK SERVICE

- o To increase the number of government agencies and non-profit organizations that offer community work service opportunities to non-violent offenders by 10% in FY 08

DEPARTMENT: JUDICIAL**DIVISION: Family Court Services Division****INDEX: 417000****ORIGIN/PURPOSE:**

The role of the Social Worker is to develop, implement, and direct a program that will include evaluation / mediation for parties to domestic cases who have disputes over custody, visitation, and similar issues. Working directly with the parties in both individual and joint sessions, the Social Worker addresses issues that may arise such as mutual cooperation, child development, and child safety. The goal of the program is to assist parties in resolving their problems themselves instead of resorting to time consuming and unproductive court hearings. The Court also established a Facilitated Visitation Program. In cases where a claim is made that a parent has not seen a child for such a significant period that they are a stranger to the child, or there are allegations of sexual or physical abuse, the Social Worker is retained to supervise visitation. The facilitator files a report after each visit and assists the Court in the evaluation of the case.

Psychological / Psychiatric Evaluations: properly done evaluations which assist the Court in determining whether further psychological / psychiatric counseling is needed and greatly expedites any referral for such assistance.

Parenting Program: aimed at assisting single / divorced parents in understanding such areas as child development, the separation process, and the psychological aspects of divorce.

The school prides itself on treating the whole child and not just the disability. They provide instructional, residential, recreational, orientation, and mobility activities; plus health services, physical, speech and occupational therapies; and Braille instruction. They teach all of the basics, including math, reading, and science, in addition to the specialized services tailored to meet the needs of their students. A Drama Club, Boy Scouts, Arts & Crafts, and other activities are offered and students compete in swim meets, bowling, skiing, wrestling, and track.

Students who are "just" blind attend school in their local school districts where they learn in a classroom with their peers and remain close to their families and friends. Many of these students receive specialized support services from the Maryland School for the Blind.

More than 90% of the children served on campus have multiple disabilities and approximately 50% are classified as severely or profoundly disabled. Students from every county in Maryland stay on campus during the week.

VISION:

The Maryland School for the Blind strives to be:

- the premier statewide resource for the specific educational and living skill needs of all individuals with visual impairment (particularly ages 0 - 21) in Maryland;
- the statewide training center for those who work or live with individuals with visual impairment;
- a model demonstration site for the education and employment of individuals with visual impairment.

MISSION:

The Maryland School for the Blind educates children and youth with visual impairments, including those with multiple disabilities for functional independence.

FY 07	FY 08	CHANGE
-------	-------	--------

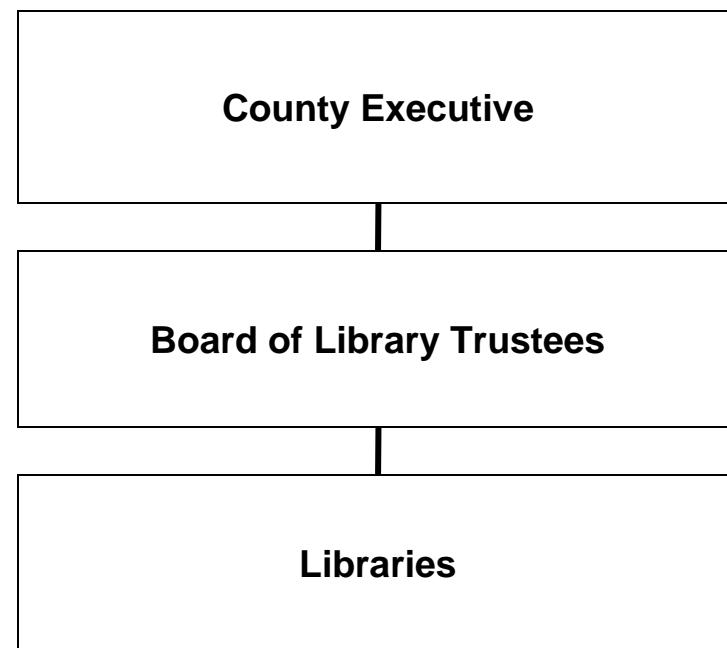

o	75,000	75,000	0 The Education Article of the Annotated Code of Maryland, Section 8-310 had required each Maryland county to pay the Maryland School for the Blind \$200 a year for each blind child who is sent to the school from that county. Effective July 1, 2004, an amendment now requires each county to pay an amount, for each child sent to the school, equal to the local share of the basic cost of educating a student in that county.
---	--------	--------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The basic local share of the cost to educate a child in Harford County will change from year to year. Harford County will be billed twice a year by the School for half of the tuition each time.

This allocation is an approximation of these charges for FY 08.

DEPARTMENT OF PARKS AND RECREATION

Swan Harbor Farm

PARKS AND RECREATION

ORIGIN/PURPOSE:

The Department of Parks and Recreation was formed under Harford County Charter, Article IV, Section 402 (Amended by Bill No. 88-35), Section 409 and 410. Parks & Recreation is divided into four primary areas of responsibility that include: Administration, Facilities & Operations, Capital Planning & Development, and Recreational Services. It is for operating and maintaining park facilities, preserving open space, and offering a variety of leisure opportunities and activities for the County's young, adult, and disabled residents. To accomplish these tasks, the department seeks and receives input and assistance through its appointed Advisory Board and interested volunteers in 20 Recreation Councils. As a means of maximizing the use of public funds, joint-use agreements with Harford County Public Schools enable the department to utilize indoor and outdoor school facilities for programs after school and weekends. These agreements allow the development of additional facilities at schools when the need is demonstrated.

The Governmental Accounting Standards Board (GASB) is the standard setting authority for governmental accounting. In order to be compliant with their GASB Statement #34, legislation was passed by the Harford County Council to establish a new Parks and Recreation Special Revenue (Fund 26) to account for activities that are of a self-sustaining nature. In FY 02, the following Parks and Recreation activities qualify for this special fund: Emmorton Tennis and Recreation Center, Oakington Peninsula, and Recreational Council and Special Activities and Skate Park.

MISSION STATEMENT:

We began keeping statistics on the recreation spectators in 2006.

Major Related Plans and Policies

As part of BRAC plans to ready Harford County for additional citizens, our therapeutic recreation division will be planning more programs for special needs individuals.

DEPARTMENT OF PARKS AND RECREATION - PARKS AND FACILITIES OBJECTIVES & PERFORMANCE MEASURES

Department Goal:

To perform timely and cost effective maintenance of grounds and buildings that satisfactorily meet the needs of our park users and recreation council programs.

Department Objective:

To increase the percentage of completed work orders for grounds maintenance as well as buildings and facilities maintenance as volume of work orders increases with new facilities.

County Goal(s) Supported:

Explanation and Analysis of Performance Measures

Work orders count decreased in FY 05 due to change in Maintenance Management Software Program revision. Work orders now go to the site rather than component; i.e. repair picnic table vs. Fallston Complex - repair A) bleacher; B) picnic table; C) fence; D) player's bench. In FY 05 started hiring full time yearly temporaries which resulted in more staff turnover, more staff time spent in interviews, processing through Human Resources and Payroll, Administration and training plus temporaries are restricted in what they can do. In FY 07 - plan to add three major buildings and one Building Maintenance crew.

Major Related Plans and Policies

Reservation of showmobile and park sites and facilities. Daily operation schedules of major buildings; i.e. Churchville, McFaul, PAL/Edgewood Recreation and Community Center, etc. Standard operating procedure for routine work and snow removal assisting Highways and Parks and Recreation sites. Memorandum of use with other County agencies or renters of buildings.

PARKS AND RECREATION - SPECIAL REVENUE FUND

ORIGIN/PURPOSE:

The Governmental Accounting Standards Board (GASB) is the standard setting authority for governmental accounting. Per GASB Statement No. 34, the following Special Revenue accounts, which are self-sustaining by nature, were established:

- o Emmorton Recreation & Tennis Center:

This facility was purchased by Harford County using State Open Space funding in November 1999 for the purpose of addressing the unmet recreation and leisure needs of the Emmorton-Abingdon area. Two of the indoor tennis courts were retained and two others were converted into multipurpose gymnasiums. The outdoor courts were converted for new parking and a steel-fabric covering for two additional indoor courts, increasing tennis court rentals and revenue production.

- o Oakington Peninsula:

The Oakington Peninsula is comprised of two separate farms, Swan Harbor Farm and Oakington Farm (Eleanor and Millard Tydings Park). Swan Harbor was purchased in conjunction with the Maryland Department of Natural Resources and Program Open Space in 1994. It operates as a self-sustaining facility generating revenue from rentals, farming, leases, and fundraising. The 328 acre Oakington Farm was purchased in 1998. The Oakington Peninsula will also generate revenues from leasing of farmland, two houses, and the facility; as well as providing a park for passive and recreational activities.

- o Recreational Council Activities:

This account is set up to receive revenues from recreational activities, registration, and events. The funds will be expended for recreational supplies, tournament trophies, officials and referees, etc.

DEPARTMENT: PARKS AND RECREATION - SPECIAL REVENUE FUND**DIVISION: Emmorton Recreation and Tennis Center****INDEX: 593002****ORIGIN/PURPOSE:**

The Emmorton Recreation & Tennis Center was purchased by Harford County using State Program Open Space funding in November 1999 for the express purpose of addressing the unmet recreation and leisure needs of the Emmorton-Abingdon Growth Corridor. Part of the former tennis operation was maintained as a means to make operation of the building self-sustaining; two indoor tennis courts were retained while others were converted into full-size multipurpose gymnasiums. Other improvements include a dance studio with appropriate flooring and mirrors which serves as a home for the Emmorton Recreation Council's dance program. Two additional indoor tennis courts, in a permanent steel-fabric structure, and an updated, extended parking lot has been made available to members and the general public. The added indoor courts increased revenue potential while allowing more random time for lessons, camps, and special events. In 2005, Harford County purchased the assets of Grand Slam USA. This multi-functional baseball/softball training area will generate additional income utilizing existing space.

The Governmental Accounting Standards Board (GASB) is the standard setting authority for governmental accounting. Per GASB Statement #34, legislation was passed by the Harford County Council on January 19, 2001 establishing the Parks & Recreation Special Revenue Fund 26 to account for activities that are of a self-sustaining nature.

FY '07 - '08 GOAL & OBJECTIVE:

 - o To retain revenue levels from current tennis membership; to increase revenue through tennis ladder participation; to increase revenue through a wide variety of tennis clinics and private lessons; to generate new revenue through baseball / softball training and training rental opportunities and to generate new revenue through baseball / softball batting cage rentals

DEPARTMENT: PARKS AND RECREATION - SPECIAL REVENUE FUND

DIVISION: Oakington Peninsula

INDEX: 593003

ORIGIN/PURPOSE:

The Oakington Peninsula is comprised of two separate farms, Swan Harbor Farm and Oakington Farm (Eleanor and Millard Tydings Park). Harford County, in cooperation with Maryland State Department of Natural Resources and Program Open Space, purchased the 461 acre Swan Harbor Farm in 1994, and in 1998, the 328 acre Oakington Farm. Swan Harbor Farm has 1/2 mile of shoreline on the Chesapeake Bay. Oakington Farm (peninsula) is bordered by the Bay on one side and Swan Creek on the other. The Oakington Peninsula will serve a dual purpose: 1) Revenue production generated from leasing of farmland, houses, tent and facilities, and 2) Regional park for active and passive recreational activities concentrating on agricultural education, historical preservation, environmental studies, as well as nature enjoyment for all ages. The revenue generated will be used to maintain and improve these facilities while protecting and preserving the County's investment.

Swan Harbor continues to expand by new amenities such as:

- 6.5 acres leased as a grape vineyard and is flourishing;
- The shorebird pond, which was added and paid for by the United States Department of Agriculture Farm Service Agency and Ducks Unlimited, brings in \$1,500 yearly income under a 20 year lease;
- We added an additional walkway, pad, and lighting to benefit those who rent the facility;
- We purchased an 80Kw generator as an emergency backup system during rentals and special events;
- We continue to expand our landscaping program with the addition of trees, shrubs, and gardens, and large wildflower meadows;
- We have completed construction on a lighted concrete ADA walkway from the Main House to a Gazebo and ADA pier over the Chesapeake Bay. The lighted pier is used for boat docking and fishing, also includes an ADA parking area;
- A fish cleaning station at the pier is under construction;
- Plan to expand growing our own plants site with addition of a new greenhouse in FY 08, to reduce cost of plant material at Swan Harbor Farm, as well as County-wide

The Governmental Accounting Standards Board (GASB) is the standard setting authority for governmental accounting. Per GASB Statement No. 34, legislation was passed by the Harford County Council on January 19, 2001 establishing the Parks and Recreation Special Revenue Fund 26 to account for activities that are of a self-sustaining nature.

FY '07 - '08 GOAL & OBJECTIVE:

- 5 TO DEVELOP AND IMPLEMENT A MANAGEMENT AND OPERATIONS PLAN FOR OAKINGTON PENINSULA WHICH MAXIMIZES REVENUE PRODUCTION
 - o To actively market and secure regular rentals of the buildings and grounds, to lease farmland and three tenant houses and to augment this revenue through a functional fundraising program

Explanation and Analysis of Performance Measures

To operate a financially sound facility, the Department must maintain or increase income levels while operating the facility in a cost-efficient manner. We continuously monitor operations along with the general public needs by constantly refurbishing the site while adding new amenities that will produce additional revenue. (Manager and Secretary are not included in staff figures as they have multi-tasked duties and are paid from Recreational Services budget.)

Major Related Plans and Policies

Continue to maintain and upgrade the facility and increase staff in order to attract additional revenue.

DEPARTMENT: PARKS AND RECREATION - SPECIAL REVENUE FUND**DIVISION: Recreational Council and Special Activities****INDEX: 593004****ORIGIN/PURPOSE:**

The Parks and Recreation Council and Special Activities account was established to receive revenues from Recreation Councils for recreational activities, registrations, and special events. These funds are expended for recreational supplies, tournament trophies, officials and referees, etc.

The Governmental Accounting Standards Board (GASB) is the standard setting authority for governmental accounting. Their GASB Statement #34 established Recreational Council and Special Activities in FY 02 to receive and expend revenues under Parks & Recreation Special Revenue Fund.

Anita C. Leight Estuary Center	50,000	0	09/30/07 Federal Renewable	Grant helps to offset County funded personnel costs for the Park Naturalist and one fourth Custodian. This is a set amount grant and does not increase with the increased cost of personnel. If grant ended, we would be unable to utilize the Estuary Center as agreed to in the contract with the State of Maryland when the building was built.	If we plan to continue using the Estuary Center, we must continue employment of Park Naturalist and Custodian.
Sanitation Grant	13,000	0	11/07/07 State Renewable	This grant provides for trash collection and removal plus port-a-pot costs at launching ramps for Flying Point Park, Mariner Point Park, and Otter Point Public Landing. If grant ended, a request for additional funding would be made to continue these services.	Operating budget would need to increase by \$12,000 due to Health Department requirements at launching ramps.

Camp Ability at Thomas Run	141,675	43,538	06/01/07 State Renewable	Grant provides 110 families with safe and structured summer activity for their children, as well as providing respite for the caregivers of these children. Grant pays the salaries of the majority of the camp staff. It also provides after school programs for children with disabilities. If grant ended, this program would probably fold. The department could not fiscally pick up the burden.	None
Liriodendron Foundational Administration	45,790	0	06/30/07	This grant provides funding to cover the salary and fringe benefits of an Administrator for the Liriodendron Mansion and surrounding property which is reimbursed by the Liriodendron Foundation.	None

Eden Mill Office Administrator	26,908	15,222	06/30/07	This grant provides funding so that citizens will now be able to discuss and meet with an individual on a regular basis regarding programs and events at Eden Mill Parks and Nature Center.	The County would have the option of paying the additional \$6,000 and / or dropping the position.
Therapeutic Recreation Programming	30,000	0	06/01/07	This grant is to supplement current programming and implement new programs for Harford County citizens with disabilities, and John Archer children and their families.	The County would assist in location of funding to continue implementation of programming.

CONSERVATION OF NATURAL RESOURCES

ORIGIN/PURPOSE:

Conservation of Natural Resources is a budgetary grouping of environmentally oriented programs, the services of which are provided to County Government by symbiotic agencies acting on the County's behalf. For example, the Harford County Cooperative Extension derives its authority from the University of Maryland at College Park, and the Harford County Soil Conservation District from the State of Maryland under the direction of the District Board of Supervisors.

Each of these programs and related activities contribute to the conservation of natural resources, and the preservation of the environment in Harford County, and merits the financial support and consideration of County Government and its residents.

Explanation and Analysis of Performance Measures

The Harford Soil Conservation District works one on one with Harford County's farm community to implement a broad range of BMP's on farmland acres throughout the County to reduce nutrient and sediment loads. These BMP's are conservation practices that accomplish the Chesapeake Bay nutrient reduction goals while balancing the needs of crop and livestock production.

Major Related Plans and Policies

A Natural Resources Element Plan - includes methods for protecting environmental resources, including streams and their buffers, steep slopes, floodplains, and the habitats of threatened and endangered species.

Explanation and Analysis of Performance Measures

The development, implementation, administration and growth of loan funds, with the resulting applications and loans, is tied to the interest rate environment in the marketplace and subject to the creditworthiness of applicants. In the case of the Revolving Loan Fund, the willingness of financial institutions to accept risk associated with participated gap-financing loans is a deciding factor. It is important to originate and sustain a moderate number of loans annually to manage the capital base and maintain portfolio quality, which in turn demonstrates the County's commitment to financial incentives for all size businesses and solid underwriting standards.
