Statement from County Executive Glassman and Public Release of Facilities Master Plan Report

BEL AIR, Md., (Feb. 11, 2015) - County Executive Barry Glassman issued the following statement on the Facilities Master Plan report prepared for Harford County government by Jacobs Engineering, Inc. in association with DeJong Richter and Grimm+Parker Architects:

“I welcome this comprehensive, independent analysis of the state of our county facilities. Although this report was commissioned during the prior administration, it was initiated to improve decision-making in the future. Both the analysis and related recommendations will help my administration use taxpayer dollars wisely as we prioritize projects and implement cost savings in next year’s budget and beyond.”

The county executive also publicly released the report, which is now published on the county website. Please follow this link to access the report:
