

## **Super Spy Adventures – Day 12**

Ok spies. It's time to work on balance and agility.

Create a series of agility lines on the floor (see photo below) with painters tape (or masking tape), so it doesn't stick too much!

Try to keep your feet on the line and walk from one end to the other – without stepping off.

Then time yourself, or better yet compete with another spy!

Good luck spies!
