**NOTE: Businesses seeking local real property tax credits must apply to the Office of Economic Development and applicable municipal departments prior to completing the construction or rehabilitation project. Real property tax credits may not be granted retroactively.*

AND/OR

STATE INCOME TAX CREDITS

The Maryland's Enterprise Zone Program provides special tax credits to encourage businesses in the enterprise zone to create new jobs. The credits are more valuable than deductions because credits are subtracted directly from income tax liability. There are two types of income tax credits for firms in an enterprise zone; a general income tax credit and a larger income tax credit for hiring economically disadvantaged employees (certified by the State).

Minimum Full-time Job Creation: 2 new

The general credit is a one-time \$1,000 credit per new employee. For economically-disadvantaged employees (certified by the state), the credit increases to a total of \$6,000 per employee distributed over three years:

- Year 1 \$3,000
- Year 2 \$2,000
- Year 3 \$1,000
