

# YOU CAN RIDE

Easter Seals  
**Project ACTION**  
ACCESSIBLE COMMUNITY  
TRANSPORTATION IN OUR NATION

**Note:** This book is a reference guide on how to use public transportation for people with disabilities who can't read. It should be used as part of a travel training program that teaches people with disabilities how to use public transportation. This book cannot serve as a substitute for travel training and it is not a stand-alone product. Someone should assist riders with determining whether they should use fixed-rout or paratransit service, planning for their trip, identifying transfer points, and suggesting solutions for any problems that may arise. A family member, friend, staff person or travel trainer should use the visual clues in each panel of the book to point out things that are important when using public transportation.
