

# EMERGENCY NEEDS SURVEY

The abilities and needs of each county resident are different. Every individual can take important steps to prepare for emergencies. If you anticipate needing assistance during a disaster talk to family, friends and others who will be part of your personal support network. By evaluating your own personal needs and making an emergency plan, you can be better prepared for an emergency evacuation.

Periodically, the Harford County Division of Emergency Operations conducts a survey to identify residents with emergency needs who require assistance with evacuation in the event of a major, area-wide emergency or disaster. It is imperative that you fill out this form if you have no support network and need public safety assistance to evacuate during a disaster, due to one of the disabilities listed on the attached form. Assistance is rendered if possible and is not guaranteed.

If you have questions regarding this form or would like brochures/literature with information on how to develop a plan, please call the Division of Emergency Operations at the telephone number listed below.
