

**HARFORD STREAMS WATERSHED STEWARDS ACADEMY  
SITE ASSESSMENT FORM**  
*(adapted from CWP RRI-Volunteer Form, 03/19/15)*

<b>Date:</b> <b>8-Digit Watershed:</b> <b>12-Digit Watershed:</b> <b>Street Address:</b>
Names of those conducting assessment:
<b>Sub-Watershed Conditions (can attach additional documents if necessary)</b>
Describe: Existing water quality or drainage issues:  Site conditions/description of problem(s):  Existing Stormwater Management (SWM) practices (if any):  Constraints for implementing SWM:
<i>Attach a map or drawing of the sub-watershed</i>
<b>Within the sub-watershed, identify a smaller drainage area in which stormwater practices can be installed. Identify at least two stormwater management practices and a pollution reduction strategy below.</b>
Name of drainage area (e.g., drainage at high school, Community X drainage, etc.):  Who owns the property?  Do you have the owner's permission to assess the site?    Yes
Property Owner's signature: _____ Date: _____ <i>Indicate the drainage area on the map or drawing of the sub-watershed</i>
<b>Drainage area conditions</b>
Describe and/or sketch the stormwater problem(s) occurring at the site and the general site conditions. Where does the water flow? Is there erosion or debris/trash deposition?

**Drainage area conditions, cont.**

Blank area for describing drainage area conditions.

**Details of proposed practices**

List the stormwater practices you are proposing:

- 1. \_\_\_\_\_
- 2. \_\_\_\_\_
- 3. \_\_\_\_\_

Describe the pollution reduction strategy you are proposing:

Blank area for describing pollution reduction strategy.

Sketch your ideas for the stormwater management practices you are proposing. Include the drainage area and items such as parking lots, curbs, roof areas, downspouts, direction of water flow, obvious utilities, existing large trees, site constraints, etc.

Blank area for sketching stormwater management practices.

<p><b>What area(s) will be treated by the practices?</b></p> <p><input type="checkbox"/> Roof    <input type="checkbox"/> Parking Lot    <input type="checkbox"/> Walkway/Patio</p> <p>Other: _____</p> <p>Combination (describe):</p>
<p><b>What is the size of the drainage area to be treated? (measure with tape, wheel, or online maps)</b></p> <p>Length = _____ feet</p> <p>Width = _____ feet</p> <p>Area (LxW) = _____ sq feet</p> <p>What percentage of the drainage area is impervious surface?</p> <p>What percentage of the drainage area is turf or other pervious surfaces?</p>
<p><b>Describe the soil in the area proposed for the practices:</b></p> <p>Soil Type:</p> <p>Infiltration test done?</p> <p>Results:</p> <p>Web Soil Survey completed?</p> <p><i>Attach web soil survey results</i></p>
<p><b>Describe the area of your proposed stormwater practices:</b></p> <p>What is the slope (i.e. &lt;5% or &gt;5%)?</p> <p>How much sunlight does the area receive?</p> <p>Is there existing vegetation? If so, describe:</p> <p>Level of visibility of your proposed practices (i.e., low, med, high)?</p> <p>Are there utilities present? (if so, list what is visible)</p> <p><b>Ask property owner to call MISS UTILITY and have them marked: 1.800.257.7777</b></p> <p><b>Home/Property has (circle all that apply):</b></p> <p>Well water    Public water    Septic system    Sanitary sewer service</p>
<p><b>Describe any other features of the proposed stormwater practice area that you think are relevant:</b></p>
