

Student Name: _____

Date: _____

Period: _____

Unit 4: Family Life and Human Sexuality

Student Vocabulary Resource

Abstinence	Adolescence	Barrier Methods	Cells	Cervix
Clitoris	Cowper's gland	Ejaculation	Embryo	Epididymis
Erection	Estrogen	Fallopian tubes	Fertilization	Fetus
Foreskin	Gender	Hormonal Methods	Hormones	Hymen
Labia	Menstruation	Organs	Ova	Ovary
Ovulation	Penis	Placenta	Pre-ejaculation fluid	Privileges
Progesterone	Prostate gland	Puberty	Responsibilities	Scrotum
Semen	Seminal Vesicle	Sexting	STIs	Sperm
Stereotype	Testicle	Testosterone	Tissue	Umbilical Cord
Uterus	Urethra	Vagina	Vas Deferens	Vulva
Zygote				

Sexting

1.	<p>sending a sexual message, photo or video to someone else.</p> <p>It could be a picture of you, but sometimes people send pictures and videos of other people.</p>
----	--

Gender Stereotypes and Sexual Orientation

--	--

Female Reproductive System

10.	opening of the uterus.
11.	Sensitive area within the female's reproductive system.
12.	Carry the egg from the ovaries to the uterus
13.	methods of birth control that prevent ovulation, thin the uterine lining, and thicken the mucus in the cervix. (pill)
14.	a membrane that partially covers the entrance to the vagina.
15.	The two folds of skin on the outside of the female.
16.	Flow of the uterine lining out of the female.
17.	The egg cell.
18.	Stores the ova (egg) and hormones that cause the eggs to mature.
19.	When the ovaries release one mature egg cell each month.
20.	shelters and nourishes the fetus.
21.	muscular passageway from the uterus to outside the body.
22.	the outer part of the female genital organs.

Male Reproductive System

23.	produces seminal fluid.
24.	Forces the semen through the urethra and out of the body.
25.	Network of tubes where the sperm mature and are stored temporarily.
26.	Involuntary process that occurs when the spongy layers inside the penis are engorged with blood and the penis swells and elongates
27.	loose skin covering the end of the penis.
28.	The external sexual organ of the male.
29.	Fluid that is released before an ejaculation which contains sperm.
30.	Produces seminal fluid.

31.	the sac that contains the testes.
32.	mixture of sperm and fluid.
33.	produces seminal fluid.
34.	the male reproductive cell.
35.	small glands that produce sperm.
36.	small tube used for urination.
37.	tubes that extend from the epididymis to the urethra.

Reproduction

38.	basic unit or building block of life.
39.	the fertilized cell that is dividing.
40.	the union of a male sperm and a female egg.
41.	the developing baby after two months.
42.	a part of a living organism that is composed of tissue organized to perform a certain function.
43.	rich lining of tissue that builds up along the uterine wall.
44.	a mass of similar cells that performs a specific function.
45.	attaches to the baby's navel and grows out of the placenta.
46.	the fertilized egg cell.

STIs

47.	puts a physical wall (barrier) between sperm and egg so they cannot join (example: condom)
48.	are illnesses that pass from one person to another through sexual contact, but they can be prevented.

Abstinence

49.	is avoiding high risk behavior, such as the use of tobacco, alcohol, and drugs or engaging in sex.
