

Evaluating Respect in My School Community

Directions: Work independently to respond to the questions below. Use the knowledge you have from personal experiences and observations to answer as honestly as possible to the questions below.

1. Do you believe that lack of respect for different aspects of sexuality is a problem at our school?

☐ Yes

☐ No

2. What evidence, from personal experiences or observations, supports your response to question 1?

3. If your response to question 1 was yes:
 - a. What are at least two negative consequences this problem is causing?

- b. What are at least three benefits of changing the school environment to one that supports respect for all?

4. If your response to question 1 was no:
 - a. What are at least two negative consequences that are prevented by having an environment of respect in the school community?

- b. What are at least three benefits students at your school experience because this is not a problem?

5. Describe at least two ways people at your school show, or could show, respect for people with different aspects of sexuality.
